Charlene McGriff questioned what the applicant's justification was to request such a significant reduction in the setback requirements, and Ms. Williams explained that it was her understanding that they were trying to fit buildings in to that area of land. Brad Tuttle, with CrossRidge, explained that the front setback reduction they were requesting was not near anything or near Highway 521, and it would not affect any adjacent properties. Allison Hardin clarified that the density in the Development Agreement was not being amended, but the site where they can put the density/units is restricted because the stormwater ponds were larger than originally envisioned when the Development Agreement was originally approved in 2007. Charlene McGriff requested that Council and the developer sit down and discuss what would be acceptable for the two parties.

Charlene McGriff made a motion to postpone the 1st Reading of Ordinance 2025-2011 and to send the Development Agreement to the County Council Ad-Hoc Development Agreement Committee. Seconded by Bryant Neal. There was no discussion from Council. The motion Passed by a vote of 7-0.

Citizen Comment - Regarding Agenda Item:	Bridge Point Charter School is a proposed K–8, tuition-free public charter school designed to help Indian Land address rapid growth, overcrowded elementary and intermediate schools, and the need for more personalized, innovative learning options for families. Grounded in a STEAM model that integrates science, technology, engineering, arts, and math through hands-on, real-world projects, Bridge Point aims to complement—not compete with—existing district schools by offering a smaller, relationship-centered environment where every child is known well and supported academically and socially. The school's mission is to prepare students to become problem-solvers, responsible citizens, and lifelong learners through rigorous academics, culturally responsive teaching, and a strong focus on character, respect, responsibility, and service. Bridge Point's opening plan calls for 250 students in grades K–5 in 2027, growing gradually to a full K–8 model, which will help relieve enrollment pressure while maintaining a close-knit school culture. The planning team—experienced in charter leadership, finance, and community engagement—is committed to partnering with Lancaster County, local schools, and community organizations to align with broader development and infrastructure goals. Council's insight is critical at this stage: Bridge Point respectfully seeks your feedback on community needs, traffic and facility considerations, and opportunities for collaboration so the school can strengthen—not strain—local systems and truly serve as a long-term asset to Indian Land and Lancaster County
